

White-label Zoho delivery

Extra implementation capacity for Zoho partners — under your brand, under NDA

Cornerstone Business Suite is a Zoho reseller and implementation firm in Hyderabad, India, working with businesses since 2019, led by a **Certified Zoho ERP Professional**. We help Zoho partners in the USA, Canada, UAE, UK and Europe deliver more projects without hiring ahead of demand.

WHAT WE TAKE ON

- Zoho Books, Inventory, CRM and Zoho One configuration
- Data migration from Tally, QuickBooks, Sage, Xero and spreadsheets, with opening balances reconciled
- Deluge scripts, custom functions and Zoho Creator apps
- Reports, dashboards and Zoho Analytics
- Overflow support tickets and user training material

HOW WE STAY INVISIBLE

- NDA signed before any client detail is shared
- We work through your email domain, tools and project process
- No contact with your client unless you ask for it
- Named consultant logins with least-privilege access, removed at handover
- Client data stays in the client's own Zoho account and region

ENGAGEMENT MODELS

Pilot

One well-defined task at a fixed price, so you can judge quality and turnaround first.

Hourly block

Pre-agreed hours each month, drawn down as work comes in.

Dedicated consultant

A named consultant working on your projects with your tools.

HOW A PILOT WORKS

1. Scope

You send one task and the acceptance criteria.

2. Quote

Fixed price and delivery date, in your currency.

3. Deliver

Built and tested in your sandbox or client org.

4. Review

You decide whether to continue.

WHY AN ACCOUNTING BACKGROUND MATTERS

We began as a bookkeeping practice, so finance projects start with the books: chart of accounts, tax setup, opening balances and reconciliation are checked before go-live.

WORKING HOURS

Monday to Saturday, 9:00 am – 6:00 pm India time (IST). Calls in other time zones are booked in advance, and work handed over at the end of your day can often be ready when you start the next one.
